

## WARRANTY CERTIFICATE

**(only for double glass module)**

**(Effective from 28th Jan 2021 )**

Company Name: Jetion Solar (China) Co., Ltd. (“Jetion Solar”)

Products: Crystalline Silicon Solar Modules (“Modules” or “Products”)

By purchasing PV Modules from Jetion Solar, you have selected a high quality product we know will meet all your expectations. If the Products are properly installed according to the instructions in our enclosed installation instruction manual under (“Guidance”) and provide proper maintenance, we are sure this Jetion Solar Product will continue to maintain its ability to generate the amount of electricity as stated (“Functional Capability”). We are so confident of the quality of our Products that we are willing to extend, to the end-user, namely the purchaser of the Product who initially installed the Products or anyone who has legitimately acquired the Products from the original purchaser, without any modifications, and whilst the Products have been operated properly in accordance with the “Guidance”, the following warranties:

### 1. Limited Product Warranty

Jetion Solar warrants its Modules, including factory-assembled DC connectors and cables, if any, to be free from defect in materials and workmanship under normal application, installation, use and service conditions, including:

- 1) Not suffering from any material adverse effects, if the installation and use are properly conducted in accordance with the “Guidance”, which may limit the stability of the Modules;
- 2) Not allowing the clouding or discoloration of the glass to take place;
- 3) Cable and connector plug remaining safe and operational if installed professionally, not submersed in water, puddle or in any other conditions which may affect the functionality or damaged by any external forces (including animals bites such as rodent bites, birds and insects).
- 4) The aluminum frames not freezing up in cold weather conditions if installed correctly.

If the Modules fail to conform to the “Limited Product Warranty” within 144 months ( 180 months for rooftop PV project in Australia) from the date of purchase shown on the invoice (“Purchase Date”), Jetion Solar will, at its option, either repair or replace the Product. The repair or replacement remedy shall be the sole and exclusive remedy provided under the “Limited Product Warranty” and shall not extend beyond the 144 months( 180 months for rooftop PV project) period set forth herein. Any alleged quality problems must be documented by a certification report prepared and issued by an independent and authoritative third party (whose appointment must be agreed by the customer and Jetion Solar). The “Limited Product Warranty” does not provide any warranty for the specific power output, which shall be separately covered under clause 2 hereinafter (“Limited Peak Power Warranty”).

## 2. Limited Peak Power Warranty

The relevant effective output data can be found in the nameplate on the reverse of the Products. Jetion Solar assures that the actual power output of the Products will decline slightly, over a period of 30 years from the purchase date. Modules are warranted as follows:

1. Modules with an age from purchasing date to 12months are warranted against power degradation in excess of 2.5% for mono-crystalline Modules and 2.5% for poly-crystalline Modules, of the nominal power as set out in the Products' nameplate measured under STC condition. If the power degradation excess this, provided that such loss in power is determined by Jetion Solar not to be due to faulty workmanship of the Module when the Module was installed and used properly under normal conditions, then Jetion Solar will, at its sole option, either repair, replace or provide additional Modules to make up for such loss in power.

2. Modules with an age from purchasing date between 2 and 30 years are warranted against annual power degradation in excess of 0.5% for Modules, which means the power of "n" year will be no less than  $97.5\% - 0.5\% * (n-1)$  for mono-crystalline Modules and  $97.5\% - 0.5\% * (n-1)$  for poly-crystalline Modules ( $2 \leq n \leq 30$ ). If the power degradation excess this, provided that such loss in power is determined by Jetion Solar not to be due to fault workmanship of the Module when the Module was installed and used properly under normal conditions, then Jetion Solar will, at its sole option, either repair, replace or provide additional Modules to make up for such loss in power (if Jetion Solar considers necessary). During the warranty period 30 years – and at the end of this, the maximum degradation of the Modules should not exceed 17% for mono-crystalline Modules and 17% for poly-crystalline Modules as set out in the Products' nameplate measured under STC condition. If the power degradation excess this – always in the warranty period- , provided that such loss in power is determined by Jetion Solar to be due to faulty workmanship of the Module when it was installed and used properly under normal conditions, then Jetion Solar will, at its sole option, either repair, replace or provide additional Modules to make up for such loss in power.

STC are as following: (a) light spectrum of AM 1.5, (b) an irradiation of 1,000W per m<sup>2</sup> and (c) a cell temperature of 25°C degree centigrade. The measurements are carried out in accordance with IEC 61215 as tested at the junction box terminals per the calibration and testing standards of Jetion Solar (valid at the date of manufacture of the Modules).

### 3. Exclusions and Limitations

In any event, any warranty claims must be made within the applicable warranty period together with a report from an independent and authoritative third party (whose appointment must be agreed by the customer and Jetion Solar). Both “Limited Product Warranty” and “Limited Peak Power Warranty” do not cover any costs associated with installation, removal or re-installation of the Modules and (except as explicitly set forth in the final paragraph of Section 5) customs clearance or any other costs for return of the Modules.

In addition, the “Limited Product Warranties” and the “Peak Power Warranties” do not apply to any Modules which have been subjected to:

- 1) Misuse, abuse, neglect or accident of storage or inappropriate transport before installation.
- 2) Alteration, improper installation or application. Non-observance of Jetion Solar’s installation and maintenance instructions;
- 3) Exchange, repair or modification of the Products by someone other than an approved service technician of Jetion Solar;
- 4) The serial or identification number has been altered, defaced, removed or made illegible.
- 5) Use of Products on mobile units such as vehicles or ships.
- 6) Influences such as dirt or contamination on the face-plate; contamination or damage by e.g. smoke extraordinary salt contamination, or other chemicals.
- 7) Power failure surges, lighting, flood, fire, accidental breakage or other events outside Jetion Solar’s control.

### 4. Limitation of Warranty Scope

The limited warranties set forth herein are in lieu of and exclude all other express or implied warranties, including but not limited to warranties of merchantability and fitness for a particular purpose or application, and all other obligations on the part of Jetion Solar, unless such other warranties and obligations are agreed to in writing by Jetion Solar. Some jurisdictions limit or do not permit disclaimers of warranty, so this provision may not apply to the customer.

To the maximum extent permitted by applicable law, Jetion Solar hereby disclaims, and shall have no responsibility or liability whatsoever for, damage or injury to persons or property or for other loss or injury resulting from any cause whatsoever arising out of or related to any of its Products or their use. To the maximum extent permitted by applicable law, under no circumstances shall Jetion Solar be liable to the customer, or to any third party claiming through the customer, for any lost profits, loss of use, or equipment downtime, or for any incidental, consequential or special damages of any kind, howsoever arising, related to the Products, even if Jetion Solar has been advised of the possibility of such damages. To the maximum extent permitted by applicable law, Jetion Solar’s aggregate liability, if any, in damages or otherwise, shall not exceed the purchase price paid to Jetion Solar by the customer for the Product.

The customer acknowledges that the foregoing limitations on liability are an essential element of the agreement between the parties and that in the absence of such limitations the purchase price of the Products would be substantially different. Some jurisdictions limit or do not permit disclaimers of liability, so this provision may not apply to the customer.

Some jurisdictions do not allow limitations on the exclusion of damages, so the above limitations or

exclusions may not apply to the customer.

## 5. Obtaining Warranty Performance

If the customer has a justified claim covered by this “Limited Warranty”, an immediate notification directly to the Australia agency Aus Solar Energy Pty Ltd shall be filed by mailing a registered letter in writing to the address of Aus Solar Energy listed hereunder, or sending an email letter to the email account of Aus Solar Energy listed hereunder. Together with the notification, the customer should enclose the evidence of the claim with the corresponding serial number of the Module(s) and the date on which the Modules have been purchased. An invoice with clear indication of the purchase date, purchase price, Module type, stamp or signature of Jetion Solar or its distributors should also be submitted as part of the evidence.

The return of any Modules will not be accepted unless prior written authorization has been given by Aus Solar Energy. In connection with both the “Limited Product Warranty” and “Limited Peak Power Warranty”, Aus Solar Energy shall reimburse customer for reasonable, customary and documented transportation charges by sea freight for both the return of the Modules and reshipment of any repaired or replaced Modules, only if this cost is authorized by Aus Solar Energy Customer Service Department.

## 6. Severability

If a part, provision or clause of this “Limited Warranty”, or the application thereof to any person or circumstance, is held invalid, void or unenforceable, such holding shall not affect and shall leave all other parts, provisions, clauses or applications of this “Limited Warranty”, and to this end such other parts, provisions, clauses or applications of this “Limited Warranty” shall be treated as severable.

## 7. Various

The “Limited Warranty” applies to all Jetion Modules. The warranty period(s) as defined in Sec. 2 shall not extend or renew upon the repair or replacement of a defective Product by Jetion Solar. The warranty period for replaced or repaired Product(s) is the remainder of the warranty on the original new Product(s). Any replaced Modules shall become the property of Jetion Solar made for their disposal. Jetion Solar has the right to deliver another type (different in size, color, shape and/or power) in case Jetion Solar has discontinued producing the replaced Modules at the time of the claim.

## 8. Force Majeure

Jetion Solar shall not be responsible or liable in any way to the customer or any third-party arising from any non-performance or delay in performance of any terms and conditions of sale, including this “Limited Warranty”, due to acts of God, war, riots, strikes, warlike conditions, plague or other epidemics, fire, flood, or any other similar cause or circumstance beyond the reasonable control of Jetion Solar. In such cases, performance by Jetion Solar of this “Limited Warranty” shall be suspended without liability for the period of delay reasonably attributable to such causes.

## 9. Validity

This “Warranty Certificate” effective from Jan 28, 2021, applied for the Modules sold from Jetion Solar after this date, And the PV module models include (JT\*\*\*SSh/JT\*\*\*SSh(B)/JT\*\*\*SIh/JT\*\*\*SIh(B)). The Modules sold before this date is applied for the original “Warranty”.

## 10. Others

You may have specific legal rights outside this warranty, and you may also have other rights that vary from state to state. This “Limited Warranty” does not affect any additional rights you have under laws. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions in this “Limited Warranty” statement may not apply to you.

This Warranty is provided in addition to other rights and remedies held by a consumer at law. Our goods come with guarantees that cannot be excluded under Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Jetion Solar (China) Co., Ltd is a socially responsible Solar PV Module manufacture, operating under a comprehensive Quality Management System certified to global standard ISO 9001 and the Environmental Management System certified to ISO 14001, upholding the value of fair trading and customer satisfaction by supplying products of the quality it claims. Jetion Solar (China) Co., Ltd undertakes to work closely with industry regulators and Australian governments and agencies, particularly Clean Energy Regulator, Clean Energy Council, Australian Competition & Consumer Commission (ACCC) and state and territory Fair Trading offices. As part of its Standard Operating Procedure (SOP), any significant product issues discovered or reported after sales, including but not limited to serial defect and latent safety risks, will be addressed expeditiously and in line with the SOP, which includes informing the customers of the issue and options of solution mitigating inconveniences caused, and reporting to the federal and state authorities in compliance with the laws and regulations.
